THE FASTEST ROUTE TO SUCCESS

BSO Network Solutions is an international operator and low latency specialist, and offers you direct connectivity with the main financial markets in Europe and around the world. The most direct and fastest routes offered by BSO Network Solutions provide you with the fastest transaction rates and very low transmission times for financial transactions and other commercial exchanges.

BSO Network Solutions offers multiple low latency options and direct access to low latency transatlantic connections over any connection, with several docking stations to facilitate network security and service continuity.

## Benefit from the special offers on Europe - Asia-Pacific 10mb links!

As part of its international growth strategy BSO Network Solutions has recently opened two new PoP to connect Europe (London) with Asia-Pacific (Hong Kong). On the edges of its extended network covering 16 countries, these new points of presence let you take advantage of maximum security while benefiting from the shortest route and lowest latencies available on the market.

BSO Network Solutions has a Nx10Gbps network already compatible with the 100Gbps interfaces, covering 16 countries (Australia, Belgium, Brazil, Canada, Dubai, France, Germany, Hong Kong, Italy, Netherlands, Russia, Spain, Switzerland, Turkey, UK and USA), with offices in Paris, London and Hong Kong.

BSO Network Solutions will be at the Trade Tech Show in London on 25 & 26 April 2012
